

An Isle Of Education

Host your next Girl Scouts trip on Pigeon Key, an island full of activities for your energetic troop. Located in the heart of the Florida Keys, the island gravitates towards hands-on learning, providing scouts with a pivotal, one-of-a-kind experience that will be invaluable to them the rest of their lives. Pigeon Key Foundation would like to extend this opportunity to your troop. We work our

programs and planned-activities around your troop's needs, and only host one group on island at a time, allowing for an individualized experience.

On-Island Opportunities

- Marine Science Programs
- Several "try-its." merit badges, and interest projects (depending on age group) available to earn including backpacking, camping, eco-explorer/eco-action, sports, first-aid, animals, cooking, water wonders and more.
- Underwater obstacle course
- Large field for activities
- Volleyball court and basketball net
- Bocce ball, horseshoes, tidepooling, and snorkeling (gear provided)
- Fire pit
- Service projects available
- Opportunities exist to take your girl scouts off-island to snorkel at Sombrero Reef, kayak through mangroves, visit the Turtle Hospital and/or Dolphin Research Center, or conduct beach clean-ups at Bahia Honda.

On-Island Accommodations

Your troop has the option of camping or staying in our historic buildings. Dorms include bunk-style sleeping arrangements, bedding, full bath facilities, air conditioning and more. Meals are optional. Island is accessible by ferryboat or backpacking 2.2 miles on the bridge.

About Us

Pigeon Key Foundation & Marine Science Center is a 501(c)-3 non-profit organization whose goal it is to protect the cultural history of the Florida Keys by promoting its healthy future. We host a variety of groups and have daily historical tours. All staff are CPR/first aid certified with an Eagle Scout on staff.
